SPANISH BEST PRACTICE ON CYBERSECURITY

HOW BUSINESSES IN SPAIN COLLABORATE WITH LEAS IN FIGHTING CYBERCRIME

WHO AM I

DIRECTOR OF SPANISH CENTRE OF EXCELLENCE ON CYBERSECURITY (CNEC)

Collaborators

- Guardia Civil
- Cuerpo Nacional de Policía

CNEC ORIGINS

- Created <u>BY</u> and <u>to</u> LEAS
- HAND IN HAND BOTH SECURITY BODIES AND A PRIVATE COMPANY, EXPERTS ON CYBERSECURITY
 - THEY CAME LOOKING FOR THE UNIVERSITY TO PARTICIPATE

- Universidad Autónoma de Madrid
- Guardia Civil
- Cuerpo Nacional de Policía
- A Private Company

BUT... IT REALLY DIDN'T WORK

- FIVE YEARS LATER ...
- It is a UAM initiative, with the participation of LEAs
- WHY IT DIDN'T WORK FOR THE PRIVATE COMPANY?
 - THEY SAW IT AS AN OPPORTUNITY TO SELL PRODUCTS AND TRAINING TO LEAS.
 - SO THEY WERE NOT REALLY WILLING TO SHARE (AND MUCH LESS GIVE)

A MUCH BETTER APPROACH

- One of the CNEC activities is a Master on Digital Evidence, designed for LEAs
- This year we have more than 30 Guardias Civiles attending it
- THEY ARE FUNDED BY GUARDIA CIVIL AND ... A PRIVATE COMPANY
 - WHY A COMPANY IS WILLING TO "SPEND" MONEY ON LEAS TRAINING?

WIN-WIN SITUATION

- A COUPLE OF YEARS AGO THE COMPANY HAS A "CYBER ISSUE"
- THEY CALLED GC AND ASKED FOR HELP
- OF COURSE THEY GOT IT, BECAUSE IS GC RESPONSIBILITY TO PROTECTED SPANISH CITIZENS AND THEIR COMPANIES
- Now, the company understands that Inverting on GC Training is as cost-effective (even more?) as training its own personnel.

FIGHTING CYBERCRIME

- MOST EXPERTS AGREE THAT SHARING INTEL IS BASIC FOR REDUCING CYBERCRIME.
- HOWEVER, ADMITTING MY COMPANY WAS "HACKED" DOES NOT SEEM THE BEST PROMOTION STRATEGY
 - THE GOVERNMENT IS ASKING ME TO REPORT SECURITY INCIDENTS
 - BUT THE CAN PENALYZE ME IN THE NEXT PUBLIC BIDDING

THE PROPER WAY OF LOOKING AT IT

• MHO MONTD AON CALTS

DO NOT FOOL OURSELVES

- WE ALL ARE IN WAR (AT LEAST A DIGITAL ONE)
 - I WOULD CALL IT "COLD WAR 2.0"
 - THE "TOWERS" TO BE DEFENDED ARE OUR **INFORMATION ASSETS**
- SO WHAT MORE LOGICAL THAT A (VERY CLOSE)

 COLLABORATION BETWEEN **STATE** AND **COMPANIES**

SPANISH STRATEGY FOR NATIONAL CYBERSECURITY

- ONE (OUT OF 4) OF THE BASIC PRINCIPLES: **SHARED RESPONSIBILITY**
 - ALL THE AGENTS, BOTH PUBLIC AND PRIVATE (INCLUDING CITIZENS) SHOULD BE IMPLIED
 - ... SUITABLE PUBLIC-PRIVATE COOPERATION, ABLE TO PROMOTE INFORMATION INTERCHANGE

SPANISH STRATEGY FOR NATIONAL CYBERSECURITY (II): GOALS

GOAL 4 (OUT OF 6): TO <u>RAISE AWARENESS</u> ON CITIZENS, PROFESSIONALS,
 PRIVATE COMPANIES AND PUBLIC ADMINISTRATIONS ABOUT CYBER-RISKS

SPANISH STRATEGY FOR NATIONAL CYBERSECURITY (III): ACTION LINES

- LINE 5 (OUT OF 7): SECURITY AND RESILIENCE OF ICTS ON THE PRIVATE SECTOR
- Line 6: Knowledge, Skills and I+D
- LINE 7: CYBERSECURITY CULTURE

SPANISH ORGANIZATION: AGENCIES

- CCN-CNI: IS THE CERT FOR THE PUBLIC ADMINISTRATION, BUT ALSO PROVIDES
 - NFORMATION
 - GUIDES
 - Tools
 - Incident Handling: "Always <u>under strict confidentiality from both sides</u>, the CCN-CERT PROVIDES TECHNICAL AND OPERATIVE SUPPORT, FOR DETECTING, REACTING, DETERRING AND REMOVING POTENTIAL (CYBER) THREADS"
